The story begins with beautiful ballerina Nicole Hudson, who rose to Broadway stardom from a heartbreaking childhood. Her secret admirer is David Lang, a young neurosurgeon with a medical breakthrough---a way of re-growing damaged nerves to cure brain and spinal-cord injuries. Davids frustration arises because his experimental treatment, which he believes to be safe, requires approval from New Yorks health system, CareFree, a bureaucracy wracked with cost overruns and other, politically motivated priorities. To Davids despair, it will take years to get through the red tape. Then an accident happens that will change life as they know it for David and Nicole. She suffers a devastating injury, and her only hope is Davids new cure. She never imagines that the neurosurgeon treating her is also her secret admirer. What will happen when David is forced to take on the whole system---and the powerful, unswerving official who runs it---to fight for his work, his ideals, and the woman he loves A revolutionary medical breakthrough, a poignant romance, and a bitter conflict with the law...
