Have you ever wondered why some students make good grades and others don t? Maybe it s because they know something you don t know. And, as you read this book you ll discover exactly what those secrets are. I m talking about writing the dreaded college research paper. I don t care if you re a graduate student or an incoming freshman, you ll be writing, and writing a lot, and writing a lot of research papers throughout your college career. It doesn t even stop there-you ll be writing a Master s Thesis, even a PH.D. Dissertation if you stay in long enough. The goal of this book is to make your college career as pleasant as possible. I m talking about getting A s ; not B s and definitely not C s . If you have ever made anything below a C then you re in for a real treat, because this book is going to help you switch poles. Instead of failing marks, you ll start to receive top marks. You ll impress your professors when you prove to them academically that you know more than they do. They ll probably think you re some kind of whiz kid with a genius IQ or something like that. So what is this book about? This book is a strategy. It is one I used and my countless tutoring and workshop students have used and all with great success. This book literally teaches you to write a ten page research paper in hours; not days, not a day-but hours! You re asking yourself: Does this include the research too?...
