Children will love this amazing series about the life cycles of animals and other living things! Created by Bobbie Kalman, this beautiful set of books takes young readers through the fascinating process of life that all living things share--birth, growth, and adulthood. Carefully designed and written, each book clearly shows that a life cycle does not simply describe the life of one living thing but the continuation of its entire species. Mosquitoes have lived on Earth for more than 30 million years! Close-up photos and detailed illustrations depict the amazing changes a mosquito goes through in four stages: egg, larva, pupa, and adult. Kids will enjoy reading about different species of mosquitoes and--most importantly--why they bite!.
